Brest, 2020, April 2

I, undersigned, Luc Jaulin, full Professor at University of Bretagne Occidental and teacher at ENSTA-Bretagne engineering school, certifies that Jean Dupond, has obtained successfully the diploma associated to IAMOOC, a MOOC on Interval Analysis with Application to Parameter Estimation :

www.ensta-bretagne.fr/iamooc/

By the end of this course, Jean Dupond acquired the skills

- to use Interval Analysis and its implementation with Python using the PyIbex package.

- to build interval algorithms to solve problems such as global optimization, parameter estimation, and localization.

The course period was six weeks from February 20th to April 2th 2020 and corresponds to 50 hours of lessons and practice.
