AWORD
FROM THE STUDENT UNION

* "Hello" in Breton

« DEMAT* Everyone !!... »

So, the competitive exams are almost over and all that is left are the orals before you discover student life. ENSTA Bretagne is the place to be and our Student Union Team, the BDE, are ready to give you a warm welcome!

Apart from the range and depth of the courses you can follow, ENSTA Bretagne is a school that has loads of associations, so believe me, you won't have time to get bored!

As soon as you arrive on Breton soil, our integration squad have 2 weeks of crazy stuff lined up for you to have Fun with a capital "F", culminating in the WEL (Integration Weekend page 22) in a secret location that will be revealed at the very last minute. After that, as we say in these parts, the "integ lasts all year!"

What's more, as if that wasn't enough, the BDE

have lots of different sports associations, clubs and communities so that you feel relaxed and at home. Try to find a space in your advanced technologies student engineer diary, (go on... admit it.. that sounds super cool!) of the dates of all of the major events right now! The campus is great for super sports facilities, the Foy'z (the Student's Building or homefrom-home, pages 6/7), the Shreu (Restaurant) and the RDE (Students' Hall of Residence) for a bit of rest between two activities (or even between two lessons).

Do you dream of a full and action-packed student life? We would be delighted to have you come and join us next year. We are looking forward to it.

Raphaëlle

President of the BDE Student Union ENSTA Bretagne.

DID YOU SAY YETI?

In the beginning, all the students at our school were military student engineers, serving the French Procurement Agency, the Direction Générale de l'Armement. These IETA (Ingénieurs des Etudes et Techniques d'Armement) gave themselves the nickname Yeti...well, it saves them having to repeat the acronym every 2 minutes. Today, this strong and mysterious animal has become the mascot of the school's students, spreading fear and panic in opposing sports teams and seducing the hottest Brest students.

Today, these IETA, represent 20% of the students in the school. They have shorter hair than the others and wear a uniform for special occasions. But like the civilian students, they join in to promote the BDE campaigns, volunteer at the Foy'Z and take part in all the activities. They open the path to new industrial partners and combine forces with the civilians which is a real strength for ENSTA Bretagne. So we are all really proud of this diversity, the civilians like the military.

Before starting school and their engineering career, the IETA carry out an immersion period in the armed forces for several months during Year « 0 ».

ESPRIT IETA

The IETA students are committed to honoring military personnel who work day in, day out for peace and security. Every year, the team, accompanied by injured service personnel, take up impressive human and sports challenges, all crowned with success, such as the 620 hike or the 700km bike ride between Brest and Villiers-Carbonnel. The money raised from each event, is donated to the Bleuet de France charity.
